

HOW TO FIND JUST THE RIGHT BOOK

Since every reader is different, teachers often rely on a system of leveled books to match their students with just the right book. Programs such as Lexile and Accelerated Reader (ATOS) use different measurements to determine the complexity of a text.

Books should foster the reader's critical thinking and reading comprehension skills. Teachers, librarians, parents/guardians, and students can use the following to find books:

- ▶ **AR Bookfinder:** <https://www.arbookfind.com/UserType.aspx>
- ▶ **Find a Book:** <https://hub.lexile.com/find-a-book/search>
